DFK International is a major international association of independent accounting firms and business advisers that has been meeting the needs of clients with interests in more than one country for over 50 years. Our association now has over 300 offices across the world. The association is divided into three regions – The Americas, Asia-Pacific, and Europe, Middle East & Africa. Each region appoints a Regional Vice President who is a member of the Board of Directors and also the Members Council. Regional Vice Presidents have a particular responsibility for ensuring members comply with DFK's Membership Criteria.

An Executive Director, employed by the Board, is based in the DFK International Executive Office in London and is responsible to the President and the Board of Directors for all administration and development of the international association. In larger countries of the world where there are several DFK Member Firms, DFK has developed National Groups to respond to local clients' needs.

Each DFK member firm is an independent legal entity in its own country. A grouping of members who include DFK in their firm's names are classified as network firms in compliance with EU and IFAC requirements.

The association is a non-profit making incorporated organisation in the United Kingdom and its Executive Office is based in London.

Member firms in the Asia-Pacific region are ready and eager to assist their clients to grow their businesses which includes expanding operations outside of our region. Each member is also ready to assist clients from outside our region to take advantage of the many investment opportunities within Asia-Pacific.

There are many different cultures within the Asia-Pacific region, and these are reflected by the DFK member firms. Despite the many different cultures, the DFK member firms are united in their desire to provide a unique and professional service which includes the following:

- A commitment to achieving consistent professional and ethical standards
- Being willing and able to provide personal and timely services from experienced advisers
- Ongoing enthusiasm for fully understanding client objectives

Through the member firms of DFK International, clients have access to a complete range of services specially developed to meet the needs of clients at all stages of their development. Through the Association, clients receive practical advice on business issues tailored to meet their objectives, from experienced business advisers. DFK member firms endeavour to provide a high quality, local, personal service, and work as a team with their colleagues in other territories to deliver the effective international services that you require.

The Asia-Pacific Group has developed over the past 5 to 10 years through the efforts of our Executive Committee which meets regularly throughout the year. They have developed a business plan which is highlighted by the desire to have high quality members in all Asia-Pacific countries. We also encourage all our member firms to be involved in their own local accounting and business professions as we want to be part of growing our own profession.

Our Asia-Pacific members benefit from our annual conference which is held in November each year, and the venue moves around to give our members the opportunity to host the event. Our conference consists of many networking opportunities as well as having highly regarded professional development content where we aim to help our members keep up-to-date with business issues in the Asia-Pacific region. We also take the opportunity to share new initiatives which can often encourage others to try something new.

Development

The development of the DFK association in Asia-Pacific is led by our Vice President and our Executive Committee. Our Executive Committee consists of four members who are elected for a three-year term, plus others who are seconded onto the Executive because of their particular skills or knowledge. The four elected members are drawn from the different regions within Asia-Pacific. The Executive Committee is responsible for the conduct of the annual conference and for promoting the activities of DFK in our region. The Executive Committee employs an Executive Officer to assist with ensuring that our goals are achieved.

All members in the Asia-Pacific area are encouraged to attend and actively participate in the DFK International conference held in July each year plus the Asia-Pacific conference which is held in November. In addition we encourage the formation of National Groups and attendance at other regional conferences to promote business opportunities and referrals.
